

1 March 2025

Dear friends

While we were busy preparing to admit the first cohort of lecturers for the online post-graduate diploma last week, we received unexpected news from the Department of Higher Education and Training. They informed us that they will take up to 12 months to add the programme to their list of approved qualifications and told us we cannot begin before that happens. We had to take the hard decision to delay the start until February 2026. Some institutions, however, report a shorter turnaround time. Please pray that the Lord will open the way for us to be registered with the department as soon as possible as there are many applicants waiting for admission.

We are busy packing for the ICETE conference in Albania followed by the Local Leaders Africa conference in Kigali, Rwanda. Please pray for the Registry team at GWC who will continue monitoring the PG Dip situation while we are away.

In Christ

Caroline and Dick
